

OUR SERVICES

Assisted Living

Assisted living is chosen for different reasons and we know no two stories are exactly alike. Some individuals choose assisted living because they need a little help living life fully. Some crave social opportunities and the close comfort of friends. Others no longer want the responsibility of upkeep for their home, and want to leave cooking, cleaning and laundry to someone else. No matter your reason, you can find what you need here at Kingston Bay.

Memory Care

We know that living with memory loss due to dementia is challenging. We look past the disease and focus on the individual. By providing customized care that's exactly what someone needs to live safely and with dignity, and by getting to know residents personally, we can be certain that those in memory care at Kingston Bay will thrive while living life in our community. We'll provide the support they need along with fun, life-enriching activities every day.

Want to try senior living on for size? When space allows, we're pleased to offer short-term stays. Short-term stays can be used when caregivers need to work, travel or take a break or as a bridge between a medical procedure and a move back home. They're also a great way to try a community before committing to a long-term move. Short-term stays are based on space and availability.
